**The Beaver Cone takes the beaver problem from inside the culvert to the outside...where you can deal with it.**

## The Beaver Cone:

- \* **Ease of installation (30 – 45 minutes)**
- \* **No stream bed destruction**
- \* **Fish ports on demand**
- \* **Hinges up for cleaning**
- \* **Stacks together for easy transportation**
- \* **Built on demand for any size or shape of culvert; steel, concrete or plastic**
- \* **All heavy duty construction and powder coated**
